

# Jennifer Fosberry - Author Presentation

Jennifer offers exciting and motivating assembly programs and workshops. With each new book she brings a variety of educational topics fit for any audience. She has been known to dance with toddlers, talk about "the business" with fifth graders, entertain visiting grandfriends, and teach educators how to empower their students through the love of literature. Her path from self-published to traditionally published to New York Times Bestseller has inspired other writers.

Presentations can be tailored to your needs. But may include:

- ★ Be a Hero
- ★ On the Go
- ★ Star of the Story
- ★ Charge On
- ★ Art History 101
- ★ Book Journey
- ★ Writing Process

## Typical Schedules:

Full-day: Up to 3 assemblies + book signing\*  
(typically grouped as grades k-1, 2-3, 4-5)

## Author Presentation Menu

All talks are typically 45-60 minutes and will include introduction to the author, inspiration for books, reading, lesson, and time for questions from students (and teachers!)

**Presentations can be tailored to your needs.**

### Be a Hero

Would you like to get your students thinking about what makes a real hero? How can we be inspired by the people around us? This program points out some people who made a difference in our world and dares kids to dream.

### On the Go

Where have YOU been? Students take a trip around the world with Isabella without leaving her backyard. We discuss world monuments and the inspiration we find in everyday objects.

### Be a STAR

Isabella's imagination and love of reading takes her on a magic journey to the library. Predictive art and interactive story-telling gets students guessing what story could be next and itching to check out some of these classic stories.

### Charge ON!

Designed to show why representation matters. This event is geared toward older students, grades 3 and up. Students identify key decision-makers in our homes, communities, and country. We highlight several of the first women to hold key political positions and experiment with representation and democratic decision making.

### Art History 101

Artistic expression is an important part of human existence. Working together, students define art and experience artworks from history imposed on today. Children are inspired to create art themselves.

### Book's Journey: Idea to Reader

Writing, Revisions, Agents, More Revisions, Editors, More Revisions, Art, Manufacturing, Marketing, and Selling.

### The Writing Process

Idea generation techniques to Outlining, Drafting, and Revision.
